

Six Androids, One Woman: A Group Scene Story

Opals always fantasized about several men taking her at once, but she thinks her fantasy will never become reality. When she rents a pair of robots to help around the house, six adult-class androids show up on her doorstep instead. Their leader, David, insists that she purchased them for a round of rough, hardcore lovemaking. She resists at first, but these droids are gorgeous and anatomically correct where it matters the most. Opal decides to give in and let the ridiculously sexy androids use her body as their personal plaything. They're only robots, after all, so there's nothing stopping her from acting like a total whore... This erotic short story features explicit group scenes with multiple partners.
