

City Fashion Paris: Designers Styles Insider Tips

City Fashion invites us to explore the fascinating world of fashion. Here, it is not the renowned designers that stand in the focus, but the young top designers and the upcoming fashion stars of tomorrow. No other book delves so deeply into the fashion scene of Paris. The chapters Amazing Fashion and Luxury Fashion show the young creative folks setting tomorrows trends. Special attention is given to the new and upcoming representatives of Green Fashion. The book at hand also introduces the neighboring disciplines of shoe and jewelry design. After all, it is the matching accessories that make an outfit absolutely perfect. As a very special highlight, the designers introduced in this book reveal their favorite cafes, tell us where they like to eat out, and which galleries inspire them. Of course, tips for the best places to go shopping are included, too. All locations introduced in this book are listed with their address and homepage, and thus turn this volume into the ideal companion for every fashionista wishing to discover this fashion metropolis for themselves.
