

Beyond Human (Alien Sci-Fi Erotica Box Set)

Aliens, deserted space stations, intergalactic dating, creatures in Venice and lots of steamy tentacle sex...this value bundle from Katie Cramer contains three of her best-selling erotic sci-fi short stories: **LOVING THE ALIEN**; **GOOD SENSE OF HUMOR, MUST HAVE TENTACLES** and **AN ALIEN IN VENICE**. A total of 13,650 words. Contains very strong language and explicit sexual content between consenting adults (and aliens) aged 18 and over. Adult-only themes include alien sex and multiple penetration with tentacles (including anal and oral) which may offend or disturb some readers. All titles are also available individually.

LOVING THE ALIEN When lone traveler Caitlin arrives on a deserted space station to refuel her ship, she instantly dreads the dark corridors and strange sounds that greet her. She has no choice but to stay overnight...but she soon finds she is not alone. Her terror transforms into a sexual encounter she never could have imagined...and a realization that the lonely inhabitant of the space station needs her help for much more than just carnal desire. 3,300 words.

GOOD SENSE OF HUMOR, MUST HAVE TENTACLES Josie, dumped by her fourth loser boyfriend in a row, has decided its time for a change of direction. She meets Jack, a handsome alien, through the Interstellar Dating Agency. Hes perfect in almost every way, but theres just one problem - he has six tentacles. When Josie decides to finally give herself to the man of her dreams, she finds that love doesnt discriminate and sex with an alien really can be like nothing else on Earth. 5,000 words.

AN ALIEN IN VENICE Rose is a photographer dispatched by her publisher to Venice to photograph the Carnival. While there she meets the charming and mysterious Argento at a masked ball in her hotel. Without warning, high tides hit and Venice starts to become submerged, but

Argento has a plan to save the city. Soon, Rose is swept up in a night of incredible adventure that ends with a sexual experience that nobody on this planet could ever provide. 5,350 words.
