

Taken by the Cavemen (MMMF Group Domination Erotica)

When a mechanical malfunction fries her navigation equipment, Russian helicopter pilot Major Natalya Ilyinishna finds herself lost and separated from her squadron over the Siberian coast. With a worried eye on her fuel gauge, she lands on an unknown island shrouded in clouds. To Natalya, it looks like another of the countless bleak, uninhabited bits of tundra rock jutting out of the North Pacific. But this island holds secrets concealed from mankind for thousands of years. Soon Natalya finds herself ambushed by three monstrous brutes, their bodies sheathed in heavy muscle. Before she can defend herself, they carry her back to their lair, where their savage lust is revealed. Natalya knows her only hope of escape is to surrender to their primal desires, but even if she survives the enormous clubs beneath their loincloths, will she carry their child? This 7,400-word erotic short story contains intense and graphic sexual content, including a rough, hard encounter between a gang of three extremely well-endowed Neanderthals and a slender young woman.
