

## The Art of Patience: Black & White

Ever wondered where to begin with art? What steps to take? What age to start? Whether you can make a career out of art? Or maybe just what makes an artist tick? I once asked myself and my fellow artists these questions. In this collection of interviews with artists from around the world, they share their own personal experiences and insight on how they began their journey. Some are professionals, others are hobbyists, but what you will discover is that all of them share one key element. Patience.
