

Gay: What Does the Bible Really Say?: A Reverends Philosophy in Support of the Gay Community

Perhaps you have read others books on what the Bible says about Homosexuality. Perhaps you have read the books that argue that scriptures have been translated wrong. This book does not bow out with cowardly excuses. Perhaps you have read books that argue that according to scripture homosexuality is unclean, but it is not defined as an actual sin, and so it is okay. This is faulty reasoning and simply nothing more than word play. This book is different. There is no wordplay here, there is no loose interpretation, there is no skirting around the issue. All that is presented here is a head on, take the bull by the horns truth. There simply is no way to argue this philosophy, for it is nothing but scriptural proof which can not be argued away. Even the most learned Bible scholar can not dismiss the undeniable fundamental principle which is presented within these pages. An astonishing revelation of irrefutable, life-changing, mind-transforming truth. Most of society knows that the Bible states that for a man to lie with another man is an abomination to God, for it is written boldly in black and white. But did you know that there are several other scriptures in which the Bible speaks of homosexual law? You have not heard these quoted in social circles or churches, and the truth of them is shocking. In this radical revelation of truth, the author shows exactly how and why our current perceptions regarding sexual orientation is not cohesive with Gods true sentiment about homosexuality. The mystery of Gods opinion will be revealed and proven through the examination of little known and hidden concepts. This dynamic book takes a new look at Biblical scripture to set us free from the delusions of erroneous principles and doctrines. A must read for all who are or know a gay person. A revolutionary doctrine that will change fundamental ideologies. Rest assured, God is not against gays, even

though the Bible says very clearly and callously, For a man to lie with another man is an abomination. Find out how this oxymoron is true.
