

Bond of the Lycaon Concubine {the Lycotharian Collection}

Raina grew up with faint memories of her grandmothers fairytales; tales that told her she was a part of something far greater than her lonely, nomadic existence provided. But when she discovers she's been among the one thing she's desired most, can she let go of her human upbringing and submit to the Lycaon? Tristan has had a wild hunger for the saucy bartender ever since she started working at the Hounds Tooth Tavern. Yet, a close call with a rival pack meant risking exposing the beast he is to Raina. No matter how he imagined her reaction, he certainly wasn't expecting her to submit to the beast to be his mate. Vashon has served as Alpha for a pack of Lycaons, 500 strong, for generations, but Raina's family lineage could upset the status quo. According to pack law, his Beta, Tristan, can't keep a mate to himself, but the secret Raina holds says otherwise. Little Red Riding Hood, unlike Raina, had 99 problems, but taming two Lycaons wasn't one of them. Paranormal shifter / MF & MFM-poly / Erotic Romance WORD COUNT: 41,370
