What should have been an ordinary shopping trip turns into a strange public assault results in a complicated legal and medical ordeal, including criminal charges and lengthy civil litigation. A case with unexpected twists and turns when an adult African American college student of Caribbean descent is attacked in a place thought to have been a safe and familiar environment. A strange incident that baffled some in law enforcement, and amazed veterans familiar with the backstory. A fast-paced account told in the past and present from adult and childhood viewpoints.. Twenty-nine + continuation short stories reveal the backstory of a crime and underscore medical and legal issues that many men and women know little about. Its a cautionary tale with memorable takeaways. And the stories will challenge beliefs about perception versus reality, race, and injustice. Long-hidden secrets on a Caribbean Island will expose unsettling coincidences past and present. Only 10 percent of criminal cases involve a civil suit, reports The National Center for Crime Victims.
