That funny face your son squeezes together while you let him chew on a lemon wedge for the first time. The sound of his laugh erupting at the discovery of his belly button. The dimples on his little hands where knuckles just haven't been born yet. In the blink of an eye, it becomes a challenge to recall these details and how they make you feel. Taking a photo takes just a few seconds, but the resulting image gives you a documented memory that lasts a lifetime. It's a way to revisit these immeasurable moments, and the way they make you feel. This no-nonsense, cheese-free, read-while-they-nap, easy-as-pie guide will give you the tools you need to capture top-notch, world-class photos of your kids!
