

CCSA NG: Check Point Certified Security Administrator Study Guide

Check Point Software Technologies Ltd. develops Internet security solutions for enterprise networks and service providers, such as telcos, Internet service providers, application service providers and managed service providers. The Check Point Certified Security Administrator (CCSA) certification is designed as a foundation level certification. This certification prepares individuals to manage basic installations of the latest version of Check Points flagship product, Check Point NG (Next Generation) VPN-1/FireWall-1, which provides firewall protection for and enables VPN connectivity to servers running critical applications.
