

Cocktails on the Beach: A Grayscale Adult Coloring Book

If you like pina coladas and coloring the grey away... Pour yourself a cold drink, open up your copy of Cocktails on the Beach, and bring your fantasies to life as you imagine yourself relaxing on a beautiful tropical island without a care in the world. These grayscale images are designed to stimulate your creativity, improve your fine motor skills, and induce a state of calm meditative focus. Fine tip markers, colored pencils and watercolor mediums are all ideal for bringing these pages to life. COLOR The existing shading on grayscale pages creates a beautiful, rich color palette when blended with multiple shades of the same color. Using multiple variations of blue, green, yellow, etc. will allow you to create a more lifelike final image. MATERIALS Colored pencils, watercolor pencils, blendable markers and crayons all work well for grayscale coloring. Use gel pens, fine tipped markers to enhance detail, and a watercolor brush or sponge for better blending technique. BLENDING WITH GRAYSCALE Try coloring over the darker gray areas with your darkest color shades for greater depth and saturation. HAVE FUN There is no wrong way to color. Just do what feels right! CONNECT WITH US We love seeing all the gorgeous works of art created with our grayscale coloring books.
