

# Community Care Assessments: A Practical Legal Framework

Community Care Assessments: A Practical Legal Framework provides all the essential material that practitioners need to advise on a case successfully whether on behalf of a service, user, carer, or local authority. As much of the case law is unreported the legal analysis is particularly valuable. This edition explains: \* How the system affects local authorities, individual clients and voluntary organisations \* The legal structure of community care assessment and the service provision decisions \* How decisions can be challenged and defended \* The financial aspects of community care \* Legal entitlements of carers
