

# Launching Into Commercial Space: Innovations in Space Travel

Launching Into Commercial Space chronicles the dawn of a fast-moving commercial space age in which initiative from the private sector is launching innovation into tomorrow. With the door closed on the Space Shuttle-era, the revolutionary commercial Space Billionaires of the 21st century are opening a new door. This is the story of the pioneers and private companies around the globe currently developing new spacecraft, planning futuristic spaceports, and seeking to offer a range of space travel services for all. Features this history, accomplishments, and future endeavours of: Paul Allen, Strtaolaunch Systems Jeff Bezos, Blue Origin Robert Bigelow, Bigelow Aerospace Sir Richard Branson, Virgin Galactic John Carmack, Armadillo Aerospace Elon Musk, Space X Focuses on the companies expanding their commercial space activities, including: Alliant ATK Boeing Lockheed Martin Northrop Grumman Orbital Sciences Corporation Sierra Nevada Corporation Space X Stratolauncher Virgin Galactic Launching Into Commercial Space is a fascinating overview of the potential this new era holds to revolutionize the way we see both our world and the universe beyond.
