

Just Lie Back and Enjoy It: An Explicit Erotica Story

Tori decides its time to turn the tables on her husband, so she ties him to the bed while hes sleeping. Hes in for a maddening and incredible treat when he wakes up to her mouth on him and discovers he cant do anything but lie back and enjoy the attention! Warning: This ebook contains very explicit descriptions of sexual activity including bondage. Only mature adults who wont find that offensive should read this story. Here is a preview: I especially loved the way he always let out a shocked kind of groan when I kept going and his cock pushed inside. I hadnt gagged during deepthroat in years, but it still always surprised him that I could get all the way down. In fairness, he had a rather large and rather thick cock. It wasnt freakish or anything but hed have felt right at home next to some of the big porn stars. I moved down until my face was pressed up against his abdomen, and then I lifted up his balls with my hand so I could extend my tongue and lick at him. Again he groaned, and I felt a thrill run through me that was almost impossible to take. I loved what I did to him, and now I was doing it without his help no hand on my head, no holding me in place, and no way to do a damned thing other than just accept what I was doing and go with it. He moaned and thrust up a little as I sucked and I tried my best to keep myself from pulling my mouth off and just jumping on him right then and there. I wanted to. I was so damned horny knowing I was in control of the situation, and his cock was slick from my mouth. Hell, I could have jumped right on him right then and I probably would have cum instantly, but I wanted things to go a certain way, so when I pulled my mouth from him, I didnt straddle his cock. Instead, I got up by his face and lowered my pussy to his mouth.
