

# Lovely Nights of Young Girls: Served Up, Seasoned, and Prepared for Amatory Feasts

George and Minnie have insatiable sexual appetites which they must gratify at every opportune moment. Together with Lucy, a boarding friend of Minnie, and other bright young things, this deliciously deviant duo will push the boundaries of a society stuck in its stoic, prudish ways. With liberal helpings of lasciviously graphic prose, bounding along with the youth and vigour of its protagonists, *Lovely Nights of Young Girls* follows in the randy tradition of works such as *Eveline* and *Flossie*. Written anonymously in 1891 and published by the notorious Erotica Biblion Society of London and New York a few years later, this classic of Victorian Erotica will be sure to satisfy those with a proclivities towards the genre.
