

## Evernote: Advanced Step by Step Guide on How to Arrange Your Life With Evernote (Evernote, evernote books, evernote essentials)

Evernote is a powerful piece of software that is highly misunderstood and highly underused. When you hear the name Evernote you think of a small program where you can take notes and refer back to them every once and a while. Well I am here to tell you that this is far from the truth. Evernote is a very powerful program that can do more than just take notes it can run your life. Within the pages of this book we will give you an inside look at what makes Evernote tick. We will talk about extensions, add-ons and countless ways that you can take the power of Evernote and use it to manage your entire life. Most people may think that Evernote is just for business. Well they are wrong. With Evernote you can keep track of things like Family Trees, Your health, photo albums, personal diaries and so much good stuff I cant talk about it all in this limited space. So if you are someone who is skeptical about using Evernote or if you are someone who has never heard of the program before, this is the book you want to download. When you complete this book you will be rushing to the web site to create your free account. So stop treading this, download the book and explore the possibilities of Evernote and how it can improve your life step by step.
