In book five of the Drekinn: Pilar has known her mate for decades, but the man seems to have a will made out of steel. She finds herself at wits end and on the verge of telling him to put up or shut up. Brooks feels the mating pull with no option but to ride it out. So much counts on him keeping it together. One wrong move and the outcome could affect everyone involved. Now all he has to do is figure out how to get his dragon princess to understand they have to wait without receiving burn marks. Clues start to surface for the Drekinn Pack but still leave them with so many more unanswered. Old friends start to pop up, bringing confusion to what happened long ago to drive the shifter world into hiding. Join the Drekinn Pack as they start to put pieces together and follow the moms as they hash out plans to get what they want from their daughters. Watch as the past, present, and future start to intertwine.
