

Treacherous Curves: Bound to the Billionaire

In this standalone follow up to Treacherous Curves: Blackmailing the Billionaire, curvy bookkeeper Annie is exploring the possibility of a relationship with James, her billionaire boss. Sure, the sex is hot - unbelievably hot, in fact - but in order to feel right about their relationship, she would have to quit her job. James is offering to support her while she pursues her art, but Annie isn't sure that she is ready for that level of commitment. And the more she learns about him, the more secretive and mysterious he seems. In spite of everything, will James and his silver tongue be able to convince her to follow her dreams and place all her reliance on him? Even steamier than part one, this 17,500 word story is intended for adults only.- Excerpt -He sat down and sprawled, one leg slung over the arm of the chair, giving me a look that I could only describe as smoldering. He was the very picture of lazy seduction, everything in his pose saying that he knew this was all he had to do to get what he wanted. I sketched furiously, trying to keep myself removed from the situation, the way an artist ought to. But it was hard to concentrate, knowing that he was sitting just a few feet away, actively, no, aggressively trying to throw me off my game. Knowing how badly I wanted him. Knowing that I was here, not for a love of art, but because I couldn't say no to him. I spent a long time perfecting the lines and creases at his groin, the way the fabric stretched around the bulge underneath. I could have sworn I saw it stir a little, but if it did, the rest of him remained completely still. Thank you, I said, softly, when I was finished. That'll do. He stood up slowly, stretching a little, then hooked his thumbs in the waistband of his jeans and pulled them all the way off. I stifled a noise, somewhere in the back of my throat. I let my eyes dart up and down his body just a few times before I turned back to my notebook, but it was enough.

The image was burned into my retinas. Every angle and contour of his body was perfect, like he'd been sculpted by someone trying to demonstrate the ideal shape for a man's body. He stood in front of me, completely shameless, and I couldn't help but feel like this was all wrong. He was naked. Vulnerable. I ought to have been in complete control of this situation. But despite the fact that he was posing nude for me, ostensibly doing exactly what I wanted him to do, even if I hadn't wanted to admit it, I still felt utterly helpless. Just his presence in a room was enough to inspire that feeling - that prickling in the back of my neck, that nervous, strangely exhilarating realization that I was no longer in control of my own destiny. That, in some way I still didn't fully understand, I belonged to him. I had to calm down. I was being ridiculous. But I couldn't stop these strange flights of fancy that my brain took whenever I was around him, any more than I could help my body's instinctive reaction to his. I began at his head, then his shoulders, drawing carefully, not allowing my eyes to dip below his waist until they absolutely had to. As my pencil zigzagged the trail of hair that led from his navel down to the dark thatch between his legs, I swallowed - absurdly loudly, I thought, in this eerily silent room - and let myself look.
