

ExamWise For MCP / MCSE Certification: Windows 2000 Directory Services Infrastructure Exam 70-217

Part of the TotalRecall: The IT Question Book Series, this new Self Help and Interactive Exam Study Aid with CD-ROM Practice testing material is now available for candidates preparing to sit the Microsoft MCP/MCSE Installing, Configuring, and Administering Microsoft Windows 2000 Directory Services Infrastructure Certification Exam # 70-217. The book covers the information associated with each of the exam topics in detail and includes information found in no other book. Using the book will help readers determine if they are ready for the Microsoft 70-217 certification exam. Each chapter in this book includes a pre- and post-assessment quiz to measure comprehension of each topic. This book explains the concepts in a clear and easy-to-understand manner to help you not only pass the exam, but to apply the knowledge later in a real-world situation. Chapter summaries help wrap up each topic. The large glossary at the end of the book provides a review of essential exam-related terms and concepts that will prove invaluable just before taking the exam. Helpful tips and time management techniques will alleviate pre-exam jitters and put you in control. This certification exam measures your ability to install, configure, and troubleshoot the Windows 2000 Active DirectoryT components, DNS for Active Directory, and Active Directory security solutions. In addition, this test measures the skills required to manage, monitor, and optimize the desktop environment by using Group Policy. Keep in mind that you will need to supplement any course with additional work. Accompanying the book is our exclusive Online Exam that creates randomized simulated exams drawn from a database of 300+ sample exam questions. Written to mimic the real exam, you also get complete answers and explanations plus a detailed scoring summary showing test results at the

end. THIS IS BOOK IS GUARANTEED:
