

Growing Concern : Part 2

Nicole is fleeing the rampant influence of her former friend and co-worker, trying to escape the gravitic pull of her new and irresistible endowments. Lost, alone, with no one to turn to she attempts to find a semblance of control and balance as she comes to terms with her new reality, her new body, and the strange world that she finds herself thrown into. This story continues the Saga that began in Growing Concern : Part 1. There is less expansion in this one (because things are already pretty big), but it deals more with the fallout of Nicole's new reality, and what she plans to do next to fight back.
