After the traditional State of the Union, presented by Vice President Joaquín Almunia in the context of the after economic crisis, the papers address four main issues: Detection of anticompetitive practices: Should existing tools be revised or new tools introduced? Leniency, market surveys, financial reward Patents: Can antitrust authorities contribute to fixing the dysfunctional patent system? European Competition Network 10 years after & EC Regulation 1/2003: Can cooperation be extended to merger control and advocacy?
