

Setting Up a Linux Intranet Server Visual Black Book: A Complete Visual Guide to Building a LAN Using Linux as the OS

This book describes how to build a small-scale LAN using Red Hat Linux 6.0 as a server on networked, PC-Unix, and other hardware platforms. It includes well-diagrammed and documented explanations of everything from basic Linux knowledge and how to install and set up Linux as an intranet file server, to managing Linux operations and security. The instructions and explanations are presented in an informative, easy-to-follow visual format suitable for both beginners and intermediate computer users. A topic-related comprehensive glossary and command reference are also included.
