

## Photoshop Cs4: Advanced, Ace Edition + Certblaster (ILT)

Photoshop CS4: Advanced, ACE Edition, is the second of four titles in this series. In this course, students will learn how to use color fills, gradients, patterns, and overlays. Students will also create layer masks, grayscale masks, and clipping masks to show or hide various parts of an image. Students will then learn how to create and edit paths and convert type to paths. In addition, students will learn how to apply a variety of creative effects, use the Vanishing Point feature and Smart Filters, create layer comps, and prepare images for use in video productions. Finally, students will learn how to work more efficiently in Photoshop.
