

Dealing With Discipline (Domestic Discipline Series Book 2)

This is the second book in the Domestic Discipline Quartet. Eleanor Villiers, now Lady Hyde and originally a reluctant wife to Lord Edwin, has realized that she has fallen in love with her husband without the reassurance that he loves her back. Its literally the very situation shed wanted to avoid by marrying a man who loved her more than she loved him, so that she wouldnt turn into the miserable, neglected wife that her mother was. Being rather stubborn and spirited, Eleanor begins to try out various tactics to discover her husbands true feelings towards her, only to find that she knows very little about love. Unfortunately her antics somehow seem to constantly lead her into situations where disciplinary measures become necessary. Meanwhile, Irene has married Eleanors brother Hugh Stanley, Viscount Petersham, even though shes in love with another man and has been since childhood. Her mother has reassured her that within the ton it is perfectly acceptable to marry one man and be anothers mistress, as long as she gives her husband the requisite heirs. On their honeymoon to Hughs estates, Irene finds her emotions becoming increasingly confused she becomes more and more fond of her husband. Under his gentle care and approval her true self begins to emerge out in the countryside, unfortunately leading to some unsafe behavior on her part which requires Hughs immediate attention. He never wanted a rebellious wife who would need constant discipline, but he doesnt hesitate to meet it out when necessary. As the ladies struggle with their notions of love, the men struggle with the hot and cold temperaments of their wives, and all of them wonder what kind of conclusion their relationships are leading to. Can they make their marriages work? Be warned: This book contains explicit erotic scenes, some bondage and toys, quite a few spankings, and some seriously sexy alpha males who firmly believe in being the head

of the household (as was the case during the Victorian time period).
