

Heir Salon (Bimbo Passion Book 1)

You're so right, darling. A wife should kneel before her Husband. Passion Heights is a company town run by the enigmatic Castle Industries, responsible for the beautiful activist Betty Kincaid's fall from grace and now employing her husband. But, after arriving, Betty and her lovely, full-figured new neighbor Jasmine notice lots of strangely erotic coincidences. The marriage rate is close to 99%, and every couple is either expecting or spilling over with fertility. Women are air-headed, giggle-happy sex dolls made for pleasing men and producing heirs and every hot beauty boasts creamy products from their overflowing cups. And men are rugged, ripped alpha studs designed purely for protecting and ruling their women. The two fierce feminists know something is up, but whatever corrupts the other women in the town affects them too. In trying to discover the secret of Passion Heights, their own passions are driven to new heights with their wildly developing need for their husbands' bodies and huge, hard male members! Complicating the situation, their own bodies are slowly altering, becoming mirrors of the sexual goddesses surrounding them in the town. To find answers, they must investigate the Happy Hair Salon, where women enter as intelligent, independent women and leave as servile, fertile nymphs utterly dedicated to obeying their virile husbands.
