

## For the Love of Two Highland Bears

Sunshine Campbell became a Crypto zoologist to prove to the world that her grandfather, Angus Campbell, wasn't crazy. His stories about legendary shape shifting animals were more than legends. He told her what he was and she believed him. She must prove they exist, even if it's only to prove that the man who raised her wasn't as crazy as everyone thought. Sunshine knows what she will do when she finds the proof that more than one bear existed in the area. What will she do when she and her best friend find not only one or two dead specimens, but an entire clan alive and well?
