

## Defender (Terran Times)

Scotia enjoys blowing things up for a living. As telekinetic munitions specialist, she is assigned to blow up the Ikanni station. There is only one problem. She needs to cut off the system defences before she blows it, and there is no way to get inside with the place crawling with Raiders. She needs the code, and the only person who has it is down on Ikanni. Bael Alder Whiccan was looking at the stars when the streak of light met the crashing and damaged shuttle halfway. He finds the woman at the crash and takes her to the only other one of her kind that he has ever met. Once she is up and around, the impulse to take her becomes a compulsion that he can no longer resist.
