

Car Accidents Made Easy: How to Settle Your Claim Fast and for Maximum Money

Car accidents and the claims arising from them are an ever increasing phenomenon. However, most people do not want to hand over 1/3 to 1/2 or more of their overall claim just to speak to an attorney. In fact, hundreds of thousands of injured people every year successfully settle their own claims every year. This book covers all important aspects of claims: from the initial reporting, to medical selection and treatment, to compiling the settlement demand, to negotiation and settlement of the matter, and even vital post-settlement issues (such as subrogation and negotiating down high medical bills, etc.) and many other important subjects. This book was gleaned from decades of working in the personal injury legal field, and covers all vital areas needed to be handled in a personal injury accident claim. This book is approximately 200 pages of in-depth material, and even comes with a detailed appendix section that has many bonus items designed to make designing and compiling your demand not only much easier, but more thorough and complete as well. This book will also detail important themes which many books (and often many attorneys, as well) do not bother to go into, because they do not make any additional money on these items [such as utilizing/negotiating down subrogation liens, or working to negotiate and lower existing medical bills]; however, these items ARE vital to injured parties because they DIRECTLY add money to the amount netted from the settlement. Important issues such as these are all covered in this complete guide, which will make a great gift or can be a great addition to a home reference library. Maximize the amount you make settling your auto accident claim, or any other claim you might have. This book also details facts for other claims or accident types as well, including even workmans compensation claims. This book has helped numerous injured parties,

and can save one hundreds or even thousands of times the purchase price. This is a must have item for accident injury victims handling their own claims.
