

Scanning for the SOHO, Small Office and Home Office

Every small office and home office needs a scanner and the knowledge to use it effectively. This book gives you that knowledge. Learn how to set size, resolution, and document type; enhance, re-size, sharpen, and improve color; handle various kinds of inputs - text, line art, photos, halftones, slides, and negatives; optimize your scan - for print, copy, e-mail, and web pages; convert your hard copy documents to computer-editable text with OCR; use various file formats - TIFF, JPEG, GIF, PSD, etc.
