

High Performance Embedded Architectures and Compilers: Third International Conference, HiPEAC 2008, Goteborg, Sweden, January 27-29, 2008, Proceedings ... Computer Science and General Issues)

This highly relevant and up-to-the-minute book constitutes the refereed proceedings of the Third International Conference on High Performance Embedded Architectures and Compilers, HiPEAC 2008, held in Goteborg, Sweden, January 27-29, 2008. The 25 revised full papers presented together with 1 invited keynote paper were carefully reviewed and selected from 77 submissions. The papers are organized into topical sections on a number of key subjects in the field.
