

# King Of Content Curation

Are you tired of getting slapped by the big G and its updates?? Panda this panda that....Really!Isnt it time you begin to gain some staying power in the world of blogging? Shouldnt you be mentioned as the go to source of information in your niche by your peers, subscribers and more?Look, let me be frank and honest with you, there is no other way to get to the top of the heaping pile and get noticed by the masses of free traffic other than getting highly ranked in the search categories by the the big G!You see after looking at what the big G really wants I have found that the truth of the matter is with all the websites out now bolstering to have the answer for all your needs in every niche thought of, really all the big G wants is trusted authority sites that where they can send the masses of information searchers to. A place where the user has a great experience and spend time on the site.I know, I know every one is a trusted authority if you let them tell it, but when you visit their site you see something totally different. Let me show you how to walk like an authority, talk like an authority and be the authority the search engines love by being being a deliverer of curated content!You will be amazed at just how easy it is to boost your rankings very quickly to the top of your field and have the search engines in love with you and readers drooling to get more and more information from you! Even before implementing any type of SEO strategy.Here are just some of the things youll discover inside this book: \*What is blog curation (and its difference from regular blogging) \*Why use content curation \*How to build a blog with content curation \*How do you use content curation to dominate your niche (creating raving fans and having people look to you as the authority source) \*How to monetize your curated blog quickly and easily \*What makes content curation a win win situation for your blog

and sites you curate information from and much, much more!
