

PENN STATE IN THE POOL: The Cover-Up of the USA Swimming Youth Coach Sex Abuse Scandal

Including facsimile reproductions of primary-source documents from civil lawsuits against the U.S. Olympic Committees governing body for competitive youth swimming, this follows the story of widespread sexual misconduct by coaches, which was first reported in 2010 by ABCs 20/20. The book raises serious questions about whether Chuck Wielgus, the executive director of USA Swimming, has made good-faith reforms of USA Swimming procedures, and whether he has been truthful in public statements about the scandal including sworn statements, under penalty of perjury, to courts adjudicating claims of victims.
