

Ive Loved You For So Long

At age, twenty-four Thierry Dior wondered why it was that the man you really want is always into playing games? She may be a virgin but she wasn't stupid. Today, most men snicker at the thought of abstinence as a means of birth control. Is it because virginity requires a substantial amount of self-control in an oversexed society? Is it laughable because it is something few of us have the will power to achieve? Hmm! I remained a virgin simply because I don't have the time for men who just want the wham bam thank you ma'am kind of lay. When my moment comes, it won't be with a random bartender or a grown man still attending high school parties. The pickings are slim, and the men who do approach you make you shake your head. It's almost like, Where do these men come from and who trained them to be men in the first place? She would be willing to have sex if the one man (aka Takoda Gray the thorn in her side) that she wanted would stop with the BS games and just give in to what they both want. She had loved him for far too long and it was time he realized that! Takoda Grey was a wolf looking for a woman who understood the importance of knowing when to tell him to kiss her ass. Of course, there would be individual exceptions, but from what he'd seen, the women who stand the test of time are the ones who make the best mates and continue treating you with respect after being mated. For him, that woman was Thierry Dior. She had told him on numerous occasions to go to hell and it stirred something in him. He had loved her since he twelve years old. She was a strong woman that could hold her own and that was what he looked for in a mate. His mate would have to be strong enough to except what he was and who he was. He just hoped Thierry wouldn't leave once she finds out.
