

## I Heard You, Baby

Leticia was pulling the tiger by its tale by verbally sparring with Sergeant Woodcock, she knew that, but she just couldn't seem to stop herself. The man drove her wild with want and if she couldn't have him, the least she could do was irritate the hell out of him. Ross wasn't sure whether Miss Morgan understood what she was asking for, but the longer she talked, the more he became convinced he was the man to give her exactly what she needed.
