

## Whos Afraid of the White House Wolf? (All The Presidents Beds Book 4)

Our time-traveling sex tourist has made her way to the late 1800s to find and fondle Rutherford B. Hayes. When given the chance to stay overnight in the White House, Alice witnesses two lupine figures cavorting on the lawn. Does the full moon make the President and First Lady howl? This is the fourth volume in the hilarious erotica series, All The Presidents Beds. The stories are a humorous take on erotica, mixed with a bit of historical fiction, seasoned with a dash of sci-fi. Warning: Explicit content. This is 12000+ word story filled with FFM threesomes, sex with historical figures, human transformations, possible werewolves and swinging. There's also a woman posing as a Prussian Princess. From the book: Rutherford's hips get into a rhythm with hers, and I see the scratches on her arms reddening as the blood flows outward. She bucks, bucks, bucks again. Her hand grabs Rutherford's, dragging it to her clit. She arches her back as he rubs at her clit, and I see the pinpricks of pleasure dot her body with red splotches. Another buck, another movement and she is screaming through gritted teeth. Rutherford gives up any pretense of getting me off and concentrates on his wife. Her face arcs into a rictus that is indistinguishable between pleasure and pain.
