

Pounded by Pluto: The Crappiest Planet (Leonard Delaney Presents: The Planets Book 1)

I dont want to live on this planet any more. Its a common thought after seeing what ridiculous crap gets published on the Internet. Well, astrophysical adventurer Tyson DeNeil Grassbone is taking it literally and moving to Pluto, which cant be any worse than Earth. Hes in for a surprise when Pluto wants to engage in a little seismic activity. The only question is: wait, what? How? Pounded by Pluto is a 5000 word short story with universal appeal. It kicks off the epic space opera of Leonard Delaneys The Planets. Note: Leonard Delaneys books all take place in the same Lennyverse, but can be read in any order.
