

# Macroeconomics Alive! Principles and Applications Version1.0

An instructional and applications multimedia supplement to the principles of economics course. Using a multimedia environment (delivered on CD-ROM), this product simulates the real world for the student. Its aim is to apply theory and phenomena that a student extracts from their text and course lecture. This CD has been developed to be used in conjunction with any textbook on the market as an application and simulation tool for the student or as an in-class presentation tool for the instructor.
