English Legal Document from 1215. MAGNA CARTA - The Text of the original Magna Carta. Three English Translated Versions. JOHN, by the grace of God King of England, Lord of Ireland, Duke of Normandy and Aquitaine, and Count of Anjou, to his archbishops, bishops, abbots, earls, barons, justices, foresters, sheriffs, stewards, servants, and to all his officials and loyal subjects, Greeting. Magna Carta (Latin for Great Charter), also called Magna Carta Libertatum or The Great Charter of the Liberties of England, is an Angevin charter originally issued in Latin in the year 1215. It was translated into vernacular French as early as 1219, and reissued later in the 13th century in modified versions. The later versions excluded the most direct challenges to the monarchs authority that had been present in the 1215 charter. The charter first passed into law in 1225; the 1297 version, with the long title (originally in Latin) The Great Charter of the Liberties of England, and of the Liberties of the Forest, still remains on the statute books of England and Wales. The 1215 charter required King John of England to proclaim certain liberties and accept that his will was not arbitrary for example by explicitly accepting that no freeman (in the sense of non-serf) could be punished except through the law of the land, a right that still exists. Magna Carta was the first document forced onto a King of England by a group of his subjects, the feudal barons, in an attempt to limit his powers by law and protect their privileges. It was preceded and directly influenced by the Charter of Liberties in 1100, in which King Henry I had specified particular areas wherein his powers would be limited.
