

## Taken by the Technician

Warning: This 3000 word story contains scenes of graphic sexual nature and it is written for adults only(18+). All characters depicted in this story are over 18 years of age. Description: Heather, a bored housewife, has a brief fling with the cable guy. Little does she know that he is much more ambitious than she is, and things are just beginning. He returns to her house with a proposal that forces her to continue their affair. Excerpt: Hank pulled her closer and began to whisper in her ear as he slid his fingers inside her. God youre tight, he said. This is such a pretty pussy you have. I want you to come for me. I want to feel your cunt clamp down on my fingers as you convulse. I want to hear you moan. Are you gonna come for me pretty girl? I know you want to. I cant imagine how many pent up orgasms you have waiting to let out. The dirty talk was too much for her. Without realizing it, she did as he had said, her muscles clamped down on her fingers as she let out what seemed like a years worth of tension as she came, releasing a long shuddering breath. She almost slid off the edge of the counter and he helped her to a chair.
