

Modelling, Vol. 2: A Guide for Teachers and Students (Classic Reprint)

Excerpt from Modelling, Vol. 2: A Guide for Teachers and Students
By all students of Sculpture, Professor Lanteri's admirable book must be welcomed with enthusiasm. At a time when it is more or less the fashion in many Art schools to admit impressionism, alas! even in the noble and restrained art of sculpture, it is indeed refreshing to read these pages, written not only with healthy vivacity, but with a thoroughness of knowledge, and, more, a scientific insight uncommon in a tentative and experimental period of both teaching and learning. It is the more satisfactory as coming from the professor of the Royal College of Art, whose school therein has produced so many admirable sculptors, and where at this moment all the sound principles so elaborately set forth in this book are being practically initiated. When I say practically initiated I mean that there is no axiom illustrated on these pages which is not forcibly maintained in practice in the school which is lucky enough to have Professor Lanteri as professor. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
