

*DVD: Shaping your Sound w/ Microphones, Mixers, Multitrack

Shaping Your Sound with Microphones, Mixers and Multitrack Recording teaches how to best mike, record and mix drums, guitars, pianos, horns, vocals, strings, and more. Learn how to professionally build a song, step-by-step, through the tracking and overdubbing process with dozens of musical examples and demonstrations. Learn the fundamental characteristics of analog tape and professional multitrack recorders and the techniques to make top quality recordings no matter how many tracks you use! You'll explore the inside of the recording console and learn to route signals through your mixer to get the best sound while achieving great mix-downs and more!
