

Green & Natural House Cleaner Recipes

Natural cleaners are growing in popularity. Many of us rarely stop to think that there are many natural cleaning agents available that work as well, or better than their mass market competition. These cleaners can be created at home, using a few simple ingredients, for a fraction of the cost of the chemically created commercial products and for far less than the mass produced natural products offered commercially. Whether you are looking to improve the environment and health of your home and family, save money on necessary household cleaning or even start your own line of cleaning products you will be amazed and pleasantly surprised at how easy it is to make your own, completely natural cleaning products. Blending inexpensive base ingredients with the antibacterial power of herbs, oils, & extracts you can clean and freshen your home. A basic cleaning kit can contain fewer than 10 ingredients! You can expand the basic cleaning kit to include other, optional, cleaning ingredients that will let you customize each product to meet the specific needs of your family. I have included more than 170 of my favorite recipes you can use to clean in and around your home. Once you see how easy to make, powerful, and healthy home made cleaning products can be, you can use the optional ingredient lists to create 100s of new custom designed cleaners, polishers, & pet products to meet your every need. So, lets get started! Gather the few basic cleaning components from the list and start on the pat to natural cleaning, disinfecting, & freshening every room in your home.
