

Night Terrors (Night Wardens Book 1)

Since the beginning of time, an elite group of human warriors called Wardens protected mankind from all supernatural threats. Born into this destiny, a Wardens duties passed from father to son until the supernaturals made peace and the Wardens were no longer needed. Since then, knowledge of their existence has faded into myth and legend. Recently, the peace has been broken as civil wars and infighting fragment the supernatural species and the Wardens are needed again. One Warden, Rev, could not be more unprepared for what lies ahead. In an instant, he goes from college student to literally fighting for his life as hes forced to enter a dark world he wants no part of. To make matters worse, his stubborn, by-the-book mentor, Jess, has little patience for a Warden whos inexperienced and bumbling at best. Just as Rev thinks things couldnt be worse, he realizes hes falling for his hard-ass mentor. Will Jess return the feelings? Or will Rev be dealing with a broken heart while trying to save the world?
