

The Fertile Divorcee

If she couldn't get pregnant, then there was no harm in trying... Jennifer When my best friend suggested registering on MateMe.com, it sounded like a ridiculous idea, but I'm a divorced woman and I've got needs. But the idea of registering on a website for surrogate mothers sounded ludicrous - Jill knew that I couldn't get pregnant, but she said it would be a sure way to satisfy myself, no strings attached. I never would have done it on my own, nor would I have believed a man would be interested in me - but when I saw his profile picture, I knew I had to at least meet him... Jake I get a dozen emails a week from dating sites, anxious to take their money from a recently divorced man. Finding a woman on those things has proven pointless - once they find out I have money all they're interested in is a wedding ring. I'm not sure why I even clicked on the email from MateMe.com - one of the reasons I'm divorced is I was never able to have children in the first place. But when I saw her picture, I knew I had to at least meet her - maybe this was a chance to satisfy myself, no strings attached... *** This is a standalone erotic romance that contains steamy scenes of unprotected adult interactions, no cliffhangers and a HEA - please be over 18 to enjoy this salacious tale! *** NOTE: This ebook contains the bonus ebook Reclaiming Her!
