

Cisco CCNA Exam #640-607 Flash Card Practice Kit

The Cisco CCNA(R) Flash Card Practice Kit, a combination CD-ROM and physical flash card product, fits neatly into the current Cisco Press certification and test preparation product lineup as a comprehensive late-stage test preparation tool. The robust exam engine, with its 500-question test bank, not only tests a users proficiency, but actually leads them to areas of review in trouble spots. The kits more than 350 flash cards are included in physical and electronic formats (compatible with Palm OS, Windows CE, and PC formats) to provide ultimate portability and the best chance at memory retention. The 35 CCNA(R) Study Sheets allow readers to get all-important information at a glance, with detailed graphical representations of important networking basics. Electronic flash cards on the included CD-ROM are adaptable, so that users may focus on the topics that present the greatest personal challenge, choosing from pre-set groups of cards, or creating their own challenging set. The flash cards and exam software are useful for students and professionals alike, from beginners to advanced users in need of a refresher on specific topics.
