With sharp teeth and claws, vibrant scales, powerful wings, and a roar like thunder, it's no wonder that dragons have been revered in the world of fantasy for many years. Abominable beings infused with powerful magic, their very existence, even in our imaginations, inspires awe. In recent years however, dragons have been a little more than awe inspiring beacons of fantasy. In some stories, they fulfill the sexual desires of young women looking for something more fulfilling than the simple touch of a man. Young women that need the unbridled passion and sensual heat that only dragons know how to give. They need the dominant touch that simple human men just don't know how to give. So, they turn to the large, winged lizards of legend to complete their desires. Doing the Dragon Anthology contains 10 short stories originally written and published by Alara Branwen and Christie Sims. These stories contain the first three dragon stories (the Doing the Dragon Trilogy) that the mistresses of monster erotica ever wrote. They also contain 7 more sizzling stories featuring powerful dragons and the women that wooed (or that are wooed) by them. This book contains the following stories.
