

Earth and Ayr (Elymyntyl Book 2)

Sol has been trying to force information from the giants on the Ravens Rest station above Jotunheim. No one can tell her where her friend Jin is until Morgarn the mountain giant walks into the bar. He knows where Jin is and is willing to tell Sol, but he trades information for kisses. Using the element of air to torture him, she finds that using air against rock is not an effective means of extracting information.
