

Sams Teach Yourself HTML and CSS: Video Learning Starter Kit

Sams Teach Yourself HTML and CSS Video Learning brings the successful Teach Yourself book series from Sams Publishing to life on video with the same clear and concise style, practical hands-on examples, and self-paced learning approach that have made the bestselling books so popular with beginners looking for the easiest way to quickly get up to speed on a new technology. This complete video course provides four hours of clear, well-organized, and carefully crafted video training. Each 10-minute video lesson uses the same step-by-step learning structure that has proven so effective in all Sams Teach Yourself books. After a short overview of the topic from the series instructor, each lesson presents a short, richly illustrated tutorial lesson, followed by a hands-on learning lab, and concluding with an interactive quiz lets the learner test how well he or she has grasped the material before moving on. With Sams Teach Yourself HTML and CSS Video Learning, you'll quickly and easily learn all the basics of setting up your own world-class web site:

- Design and create eye-catching web pages
- Customize your pages with Cascading Style Sheets (CSS)
- Position images, columns, and headings on a page
- Format text, data tables, links, and media
- Publish your pages to a web server
- Create online forms
- Enhance your site with dynamic content

The DVD includes everything you'll need to get started: Four hours of video lessons with interactive labs and quizzes

- A simple WYSIWYG web page editor for Windows, Mac, and Linux
- An easy-to-install package to set up a web server learning environment on your own computer
- The jEdit programming editor for Windows, Mac, and Linux
- Source files for all the examples and learning labs
