

Dickgirls Around Town: Trailer Trash

When the trailer starts a-rocking, its cause someone loves the cocking! Amber McPhee was just your average small-town trailer park workingwoman: single, bored, lonely, and more than a little horny; trying her best to look out for her ward Mary-Anne in a town with more than its fair share of male-endowed, female-bodied dickgirl futanari. But when Mary-Annes futa friends start coming by, fresh out of high school and eager to flaunt their imposing private parts, Amber quickly finds herself pregnant with dickgirl babies and addicted to their raw, shameless sexuality. As their lustful attentions turn toward Mary-Anne, Amber finds herself faced with an impossible choice: deny her beloved baby-breeders, or watch the promising young student that she cares for descend into mindless depravity right alongside her? *Dickgirls Around Town: Trailer Trash* is a work of erotic fiction intended for adults only. It involves taboo themes and fantasy shemale (futa, futanari, etc.) characters. All characters portrayed in sexual situations are at least 18 years of age and are not related.
