

Spanking Sydney

Sydney Davis loves her job as an executive assistant to the vice-president of a software manufacturer. Her boss never cares if she shows up late, takes a long lunch or goes home early. That all changes when he's forced into retirement and his replacement, the stern but incredibly handsome Max Daniels shows up. The company is over budget on a huge government contract and Max is there to straighten things out. But he's going to have to take his executive assistant in hand first. After one too many mistakes, Max gives her a choice she can either accept a transfer to another department and a lower paying job, or take a spanking. She loves her job and her paycheck, so she agrees to the spanking. Sydney quickly discovers that Max not only gives a hard spanking, but that she gets turned on by having her bottom warmed. While he thinks she's learned her lesson, she's trying to figure out how to get him to do it again. Only this time, she wants it to end with both of them naked in bed.
